# Expression 13000XL

High-resolution A3 graphics scanner for sharp and accurate image reproduction of plans, x-rays, film negatives, with the precision users demand.

The Expression 13000XL is a high-resolution A3 scanner designed to meet the most demanding graphic arts applications and to create sharp, accurate and detailed scans across a variety of industries, from graphic design, to government, to medical. Featuring Epson Scan 2 advanced imaging features, a LED light source, and exceptional SilverFast Ai 9 image-processing software, this scanner offers excellent image reproduction.

### Precise and sharp image reproduction
Expression 13000XL offers top-of-the-range scanning technology for extremely high-quality reproductions up to A3 in size. Epson Scan 2 is simple to use, and it allows users to optimise scanning results in either automatic or professional modes.

With a 3.8 DMax optical density and 48-bit colour depth, the Expression 13000XL offers sharp and accurate scans, allowing for full colour reproduction even in shadowy areas. Users can also capture even the tiniest details with exceptional clarity with the ultra-precise Micro Step Drive technology and high resolution of 2400 x 4800dpi.

### Sharpen and edit your scans
Expression 13000XL's comprehensive software and imaging technology ensure it can perform a wide range of tasks effectively and easily. Epson Scan 2 includes useful features for removing dust noise and grain reduction to smooth the appearance of images, and SilverFast Ai 9's image-processing functions help to achieve even better image reproduction.

### Scan a range of media
The optional transparency unit enables users to scan from transparency media, such as positive or negative film and slides, with professional results.
